

-I feel the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

- The Indiana's Telephone Privacy law has improved my time at home with my wife and kids. We are not jumping up for the phone during our meal time or our quality time in the evening has benn much less entruputed with the law in it's current form NOT TO BE REVISED is my recomendation.

-The current Indiana's law has been very effective over the first few months of it being implimented. We used to get 2-4 phone solcitores per evening and it had dropped of dramaticly with the few months the Indiana's NO-CALL rule has been in effect. Thank-you for getting the original law passed, now lets not monkey with it and lessen the effectivness it has had up to this point. If I want to talk to companies tha think I'm a past client THEN I WILL CALL THEM ON MY OWN. I don't need them calling me to HARASS ME TO COME BACK.

Thanks, Jeff Bavar

(e.g., "I used to receive 12 calls per week, now I only receive one").
